SCOTUS could be solid

NYS Senate is still Firewall in NYS

Maryland 4th Circuit decision discussed

SAFE Act – if you will get firearms from a relative, get them before they pass, as the documentation demands now could prohibit the passing on of the firearms

Need death certificate

Need background check

Went to pick up guns, have to get a NICS check, and police do not run NICS, have to have paperwork before picking up the guns, or they were illegally obtained. Per SAFE ACT

Then go back to lawyers, sign receipt, transfer from safe keeping to FFL dealer, then FFL dealer, needs copy of Death Cert and Will to transfer, get the paperwork again, then turn paperwork over, NICS check done, then pick up the guns, but two pistols, so have to go back to executor to get copy of pistol permit of deceased, take the will, death cert, his permit, my permit, all that jazz, so pistols come off the dead guy's permit, to transfer to live permit holder, then back to FFL to show all paperwork, and now the guns are there.

Discussion to invite Jim Tresmonde to speak to the group. Let's pursue.

Resolutions – Rich Davenport

Will be discussing the resolutions before the Council March 18. Hopefully recommendations will be released by NYSCC for timely consideration

Membership Outreach – The membership secretary would like all club presidents to consider attending at least one regular Federation meeting a year. This might not only prove to be a learning experience, but may also provide a better insight as to the importance of having representation on behalf of their clubs. If any club would like a visit from a Federation spokesman, please contact president Chuck Godfrey at 440-6995 or steelheader03@hotmail.com . The president will also try to visit one club or so per month.

DEC Announces 2016 Bear Harvest Results

Hunters in NYS took 1,539 black bears during 2016 hunting seasons

Bear hunters in New York State took 1,539 black bears during the 2016 hunting seasons, Department of Environmental Conservation (DEC) Commissioner Basil Seggos announced today.

"New York has excellent bear habitat and vast, accessible public lands that offer exciting opportunities for bear hunting," said Commissioner Seggos. "Black bears are thriving in New York currently, and are a great resource for both out-of-state and local hunters."

Hunters took a total of 1,025 black bears in the Southern Zone, about 10 percent fewer than in 2015, but slightly more than the recent five-year average. Nearly equal numbers of bears were taken during the bow season, 379 bears, and regular season, 398 bears. The early season, which occurs only in a handful of management units in the Catskill region, yielded 228 bears.

In the Northern Zone, 514 bears were harvested, approximately 12 percent fewer than in 2015, but on par with the historical average. Bear harvest in the Northern Zone tends to alternate between strong harvests during the early season one year, followed by strong harvests during the regular season the next year, based primarily on cycles of food availability. In 2016, hunters were most successful during the early season, taking 238 bears, while the regular season produced 167 bears.

New in 2016, junior hunters were allowed to take black bears during the Youth Firearms Big Game Hunt over Columbus Day weekend. That hunt overlapped with the early bear season in the Northern Zone. Ten junior hunters in the Southern Zone were able to take advantage of the new opportunity and harvest a bear.

2016 Black Bear Harvest & Recent Trend Comparison

	2016 Total	2015 Total	Recent 5-year Average (2011 - 2015)	Historical Average (1991 - 2000)
Northern Zone	514	583	472	515
Southern Zone	1,025	1,132	987	207

Statewide	1,539	1,715	1,459	722
-----------	-------	-------	-------	-----

Notable Numbers

- One bear per 3.3 square miles --- by Wildlife Management Unit (WMU), the greatest bear harvest density occurred in WMU 3K, which includes portions of Sullivan and Orange counties. However, the town of Minisink in Orange County (WMU 3M) produced one bear for every 1.9 square miles.
- 107 --- the greatest number of bears reported taken on any one day, the opening day of the regular firearms season in the Southern Zone.
- 555 pounds --- the heaviest dressed weight bear reported to DEC in 2016, taken in the town of Brandon, Franklin County. A 540-pound dressed weight bear was reportedly taken in the town of Walton in Delaware County, and seven bears were reported with dressed weights between 400-500 pounds. Scaled weights of dressed bears were submitted for 22 percent of the bears taken in 2016.
- 25 --- the number of tagged bears reported in the 2016 harvest. These included six bears originally tagged in Pennsylvania, five from New Jersey, and one from Vermont. The remainder were originally tagged in New York for a variety of reasons including research, nuisance response, relocated urban bears, or released rehabilitated bears.

2016 Bear Take Summary Report

A [complete summary of the 2016 bear harvest with results and maps by county, town, and WMU](#) is available at DEC's website.

NYS Black Bear Cooperator Patch Program

Hunters play a pivotal role in bear management through reporting their bear harvests, and many hunters also submit a tooth sample from their bear for DEC to determine the age of harvested bears (see the [Black Bear Tooth Collection](#) web page on DEC's website). For all hunters who report their harvest and submit a tooth, (767 hunters in 2016) DEC provides a NYS Black Bear Cooperator Patch and a letter informing them of their bear's age. DEC is still processing tooth submissions from 2016. We anticipate mailing cooperator patches and age letters to eligible hunters in September 2017.

Conservation Education

The best way to teach children how to conserve is to start young. Education and empowerment are the gifts we must give our children, and the tools they will use to make the world a better place for generations to come.

The Erie County Federation of Sportsmen's Clubs sponsors youth programs designed to teach conservation and how to respect and preserve our natural resources.

Scholarships

As part of the Erie County Federation of Sportsmen's Clubs efforts to enhance our environment and wildlife appreciation, we award up to five \$200 college scholarships yearly. Scholarships are awarded based on need and the area of study.

Visit our website at: www.eriectyfsc.org for additional information and the application form.

One of the most successful community programs co-sponsored by the Erie County Federation of Sportsmen's Clubs is the Teach-Me-To-Fish program for kids 15 and under.

This program applies the knowledge and experience of seasoned anglers and volunteers to an audience of youth up to 15 years old.

Each participant must visit a series of stations that teach how to fish, casting, knot tying, rigging plastic baits and where to fish in Erie County and Western New York. The NYS DEC teaches how to identify fish in our area, complete with an explanation to help everyone understand the biological circle of life for the creatures of our waterways.

Fish that are caught during the event are measured, recorded and placed in a live well to return to the water at the end of the event.

Lunch is provided courtesy of Sahlen's hot dogs and the Erie County Federation. Prizes are awarded to participants, including fishing poles and tackle.

TMTF Events are held at:

National hunting and fishing day is an "open house" of hunting, fishing and outdoor related events. Co-sponsored by Elma Conservation and the Erie County Federation of Sportsmen, this event allows attendees to participate in a variety of events including fishing, trap, small bore rifle shooting, air guns and archery.

Subject: Support Letters to Legislators Needed

Dear Rich,

Letters of Support for A479 and S1386 Needed!

The 2017 Legislative Session is well underway. Crossbow Bills A479 (Gunther) and S1386 (Gallivan) were introduced in early January and currently are sitting in the Environmental Conservation Committees in both the Assembly and Senate.

We collected support letters addressed to the Governor acknowledging his support for crossbow inclusion in the 2014 budget that got us the current season we have today, and asking for his support going forward in 2017 last fall. To date we have delivered over 1500 of those letters to his office.

With the introduction of the crossbow bills A479 and S1386 we are now asking that you submit a new letter of support that will be delivered to your legislators and the bill sponsors to show the widespread support that exists for crossbow inclusion across the state. Over the last 3 weekends we have collected more than 400 of these letters at sport shows and have recently placed the letter online for you to fill out. Follow this link to submit one. [Legislator Support Letter](#).

Submitting the letters through NYCC, allows us to sort them by legislators and keep a running total of what has been recorded and delivered. If you have not already done so, please take the time to fill one out today, and then send the link to the online letter submission page to your family, friends,

and hunting companions. However, you may also contact your Senator and Assemblymember directly to express your support.

The more letters submitted, the better our chances of having these bills acted upon this legislative session.

2017 Membership

2017 is shaping to be a big year for crossbow inclusion in Albany and we need the membership numbers behind us and the financial resources to be prepared for what lies ahead in the coming months.

I am pleased to say our membership numbers continue to grow. We sent out renewal notices to all of the 2016 membership at the end of last year and many have already returned the renewal invoice along with their 2017 dues. If you have not yet done so, please take the time to renew today. We will be mailing a 2nd notice soon and by renewing before we do that, you will help us save the time, effort and financial resources of sending the additional renewal invoice.

If you receive this email notice and are not a full member, please consider joining NYCC today.

If you are not sure if your membership is current, please drop us a note at info@nycrossbowcoalition.com and we will let you know your membership status.
